

Evaluating Arabic Summaries Guidelines

Evaluation process:

1. Read a document at least once.
2. Read the document summary you are to evaluate
3. Grade the summary with a value between 1 and 5.
 - Each summary is to be assigned an integer grade from **1** to **5**, related to the overall responsiveness of the summary.
 - A summary is worth a **5**, if it appears to cover all the important aspects of the corresponding document using fluent, readable language.
 - A summary is worth **1**, if it is either unreadable, nonsensical, or contains only trivial information from the document.
 - We consider the content and the quality of the language to be equally important in the grading.

Evaluators to fill the form with the required information and click Submit. An example is shown below:

Summary Evaluation Form

Evaluate Arabic Summaries (click link below to download the guidelines [opens in a new window])
<http://bit.ly/1I7pcO8>

*Required

Evaluator Name: *
Please enter your full name

Summary Name: *
Please enter the summary name: e.g. Summary1.txt

Summary Evaluation Score *
Please evaluate the summary between 1 (poor) and 5 (very good)

1 2 3 4 5
